For more info contact Mere 0226271601, facebook or email mtewhitu@yahoo.co.nz

Students are learning and engaging in the basics of Microsoft Word Programme. Creating a document, inserting of pictures, saving and printing. They are currently transferring this knowledge to working with Microsoft PowerPoint. (This blurb is for Aunty Ag and Aunty Chars photo)

Troubleshooting - Here we have students helping each other to troubleshoot and edit their work using the toolbar in Microsoft Word Programme. Cutting, Copying, pasting. Familiarizing themselves more and more with the function of formatting to produce a higher standard of work.

Nga Pakeke - the computer hub has brought together a group of elderly women who are keen to advance their own understanding and knowledge of computers and technology in general. This photo captures them sharing pros and cons of owning a computer/phone/iPad and their own experiences so far.

Young people - The hub was open during the holidays and was great to see our tamariki come and use the computers. One boy used the computers for Mathematics and the other to You Tube his favourite sports teams.
