

# NGĀ URI O WHITI TE RĀ MAI LE MOANA TRUST

## NUOWTR MAI LE MOANA TRUST REPORT

Dear Digital Wings Aspiration and Opportunity

Ngā Uri o Whiti Te Rā Mai Le Moana Trust and the hub we run here in Porirua Called “Le Malaga I Moanaroa” staff and participants have benefited from the technology devices provided by you all. With the technology that we received from Digital Wings, our organisation has been able to support our communities to the best of our ability. The desktops have allowed our staff to be able to do their work effectively and efficiently, especially for our two social workers who are doing crucial work with our vulnerable members of the Porirua community.

Our Marketing & Communications coordinator has benefited from the equipment immensely. She has been able to produce top quality content for our organisation. The content she creates is for all our social media platforms, that includes posters and videos for all our events/workshops and our website. Her work has gained the attention of other organisations and individuals who frequently ask for her to collaborate on their projects.

The tablets provided have been crucial to our organisation as it allows for a hybrid in-office/work - from-home work culture. As COVID-19 constantly looms over our communities, the tablets enable our staff members to continue their crucial work from home. They’ve also been a great help for our youth, who often don’t have stable access to a computer and internet they can depend on. This includes use during our Homework Club sessions.

One of our newest staff members and our social worker do a lot of outreach work, which requires them to do a lot of their work out of office. The outreach work they do consists of going out to different tertiary institutions and presenting to students who need any sort of assistance. The tablets have been a valuable tool in aiding presentations and ensuring that we can capture information from these students on the go.

As of 2023, we are humbled and blessed to continue expanding our staff members to cater towards the educational needs for our rangatahi/autalavou/youth. 5 new staff members are being added to our organisation, so we are seeking any technological assistance where possible.

These staff members do amazing mahi with the primary school level children at multiple schools by teaching them Kapa Haka and a variety of Pacific Island (Samoan/Tongan/Cook Island) traditional dance forms and techniques. This work happens all year round and the children from these schools often get to showcase all their hard work throughout the year at an end of year concert held by the schools.
