

Registration of Interest for Corporate Donors

Digital Wings is a programme supported by Ministry for the Environment & RemarkIT Solutions to redistribute electronic equipment from corporate entities to community organisations to enhance educational and employment opportunities. RemarkIT has a philosophy of reduce, reuse, recycle to address responsible e-waste options for New Zealand.

Digital Wings offers your company the opportunity to fulfil your Corporate Social Responsibility goals by contributing to youth development and education by becoming a *Digital Wings* Corporate Donor.

All equipment is collected, security-wiped, refurbished, reimaged and holds a 12mth hardware warranty.

To register your interest please fill in this form and email to di.daniels@digitalwings.nz

Company or Department	Authorised Contact person	Phone	Email	Office Address No, Street, Suburb, City-code

Further information:

1. *Digital Wings* is a community programme governed by The Digital Wings Trust.
2. *Digital Wings* offers a cost-neutral option for the disposal and redeployment of your technical equipment that saves your organisation time and resources. Instead of disposal via tender or auction, simply fill in an online request for pickup and receive a RemarkIT processing report
3. *Digital Wings* takes all of your decommissioned equipment to cover the costs of security wiping, refurbishment & reissue of equipment. Thirty percent of viable equipment will be redeployed to community organisations involved in youth education and development free of charge
4. For *Digital Wings* to flourish, donations need to include all upgrade kit, not only end-of-life scrap
5. Donors enter into an agreed MOU with RemarkIT Solutions naming *Digital Wings* as the programme which distributes the refurbished hardware and support to charitable organisations
6. Donors can nominate local and specific charities your organisation wishes to support, or we can donate to communities on our waiting list
7. *Digital Wings* will contact recipients after 12 months to report community progress so donors can see your donation has made a difference to their organisational goals
8. Digital Wings via RemarkIT Solutions take back all computers at end-of-life so you can fulfil your sustainability goals by knowing they stay out of the landfill after they leave your business
9. If your business / organisation can offer any additional support to communities in need, please let us know, e.g. sponsored education, community grants, internships, advice, employment opportunities, voluntary expertise or funding etc.
